*Section **B** has **two** items. Answer **one** item from this section.*

*Answer **four** examination items in all.*

*Any additional item answered will **not** be scored.*

*All answers **must** be written in the answer booklet(s) provided.*

SECTION A

Answer all items in this section.

Item 1

Goddie and Jack have contributed Shs4,500,000 each and they would like to set up a carpentry workshop in their home trading centre. However, they are afraid of conflicting in the business. They also have limited knowledge on how they will market their products.

Task:

- (a) Guide Goddie and Jack to avoid conflicts in the business.
- (b) Prepare a plan that can help Goddie and Jack to market their business products.

Item 2

Axil produces and sells chicken feeds in his home town. He employs untrained youth and uses an old grinding machine which often breaks down. As a result, the production is low and of poor quality. Many of the customers are now buying feeds from other traders with similar products.

Axil is planning to design an advert to expand his market and buy a new machine for his business. However, because he is very busy, he has hired you to help him.

Task:

- (a) Guide Axil to select a suitable grinding machine for his business.
- (b)
 - (i) Design an advert for Axil's business.
 - (ii) Other than the advert, advise Axil on how he can attract more customers for the business.

Item 3

Opio is an agent of a dairy milk company. He distributes milk to various customers using his motorcycles. He hires motorcycle riders to sell the milk and bring to him money on a daily basis. One of the riders reported that thieves attacked him and robbed him of the milk and one million shillings. When some riders are given money for fuel, they put less than what was given and complain that the fuel was not enough. Other motorcycle riders use the money from the cash sales on personal needs and claim that the milk was sold on credit.

Opio is a registered Value Added Tax (VAT) payer with Uganda Revenue Authority (URA). Last month he bought milk of Shs10,000,000 and sold it to Max at Shs12,000,000. Opio is confused and is seeking your help on how to solve the challenges in the scenario and pay VAT to URA.

Task:

- (a) Advise Opio on how he can use technology to solve the challenges in his business.
- (b) Guide Opio on the insurance policies he can take for his business.
- (c) Given that VAT rate is 18%, calculate for Opio the VAT payable to URA.

SECTION B

Answer one item from this section.

Item 4
