ART AND DESIGN

PAPER 1

S.2

2HOURS

Item 1.

During the pre-historic times, artists made a variety of artworks using different materials and tools from their environment, their community and personal needs guided them on the kind of artworks they would produce. Their artworks would be either functional or decorative.

Task:

mebuexaminationsconsult@gmail.com

As a senior two learner, describe the characteristics of nyero rock paintings of the pre-historic rock art in Uganda.

Item 2.

The kingdom of Buganda is looking forward to assimilate the tombs for cultural leaders in Egypt, as their kingdom is characterised by kasubi tombs, now they want to try to use pyramid as their new place to store the deceased cultural leaders. They have hired contractors who are good in architectural building to construct the pyramid but still they need some help in how the pyramid is characterised.

Recently, the contractors who have been given this task visited the ancient pyramids from Egypt. They appreciated the pyramids which were constructed as early as the 7th century and are still strong and attractive to date.

Task:

Assuming, you were contacted to come and guide or give the characteristics of how the pyramid was built by the ancient Egyptians. Explain how you would help the contractors to come with a good pyramid.

SECTION B: STUDIOTECHNOLOGY

Either

Andrew bought a mosaic art piece on his way back from queen Elizabeth national park, as he liked it the way it was made and its finishing was good. Reaching home his wife asked him what he has bought, and its importance. Without knowing anything he decided to go out and get anyone who knows art to explain to him and how it's made and its importance so that he can explain to his wife.

Task 3

Assuming Mr. Andrew came to you to solve his problem, how would you explain to him the art work he has brought to you so that he can go back and explain it to his wife too?

Or

Item 4.

My father has been earning money from the art products ever since he was still a youth, he has been producing many products and sold them but with no much knowledge about the methods and procedures of how they are being made.

One of the biggest art gallery here in Uganda has nominated him to come and present to the visitors expected to come on that day, but unfortunately my friend doesn't know the methods and procedures of making the art work below.

Task:

As his child and a fine art student, produce a write up for him concerning the methods, procedures and materials and tools used in the making of that product above.
