## **ITEM 1**

Kiiki Primary School is organising a meeting for the parents of P.7 pupils which is due to take place at the end of term.

In this meeting, the director of studies is to present a comprehensive report on the general performance of each learner in P.7 using their end of term examinations. However, the results are still in raw form in the support file folder **PC.docx**. In his report, the director of studies wishes to show to the parents the best and worst performed subject. The director of studies intends to enhance his report with some visual electronic representation.

However, the Director of studies has no knowledge on how to organise data using various ICT tools.

### **Task.**

You have been requested by the Director of studies to organise the data ready for presentation to the parents.

## **ITEM 2**

Kasara Dan General hardware is a fast – growing computer hardware business in Masindi Town. The hardware is experiencing a challenge of reduced number of customers for computer hardware parts resulting into losses. The administration has attributed this to poor dissemination of information about the business products to the public.

The administration wishes to boost the market of the business products by using ICTs to interact effectively with the public. However, the manager has limited knowledge on how he can use the ICTs to improve the marketing of the business products.

### **Task:**

With your skills of ICT, prepare an OFF -Line Publication that illustrates to the administration on how to address the concerns of Kasara Computer hardware business.

A support folder called **ASSHU** support files has been provided containing some files. Use the file saved "**Hardware**" to help you achieve this on behalf of the management.
