INSTRUCTIONS

✓ *Answer ALL items.*

Item 1.

As an art student, you were introduced to the fundamentals that are used in the production of art and design.

Task:

You are required to define the term elements and principles of art and give there examples of elements and principles of art and design, any additional explanations and sketches will lead to addition of marks.

Item 2.

The school is cleaning its stores, where they keep newspapers, magazines, brochures, papers, ply woods, old boxes and cassava floor etc. to create room for other things to be put inside. Check on the fig A.

Fig A

Task:

As an art student, produce a write up of how you can use those materials above and come up with an art piece giving its name and advantages to the society instead of being wasted and burned.
