- Causes of the virus/ how it can be contacted

- Treatment for HIV/ AIDS

- Diagnosis of HIV/AIDS, among others

All this information is detailed in the support file, **AIDS.docx**

As the chairman, you have invited different guest speakers to help facilitate this campaign. The images of each of the guest speakers are saved in the support files with each of their names.

Task:

You are required to use the support files provided to design visual aids that will; -

a. Help you in mobilizing students in your school and the community to attend the campaign session

b. Help the speakers in delivering content during the campaign session.

ITEM THREE

Context:

Laurie Cosmetics is a company that manufactures Vaseline, lotions, perfumes and other cosmetic products. The company has however been advised to engage in digital marketing and sales, in order to realize more revenue. This CEO then chooses to reach out to a web designer to get a marketing web site. The CEO intends to have a web site that displays the products, their names and sample information about them, other convincing information about the company and also a mode of contact, through which the clients can communicate with the company. He also intends to have a page where posts can be displayed.

Task:

You are required to design a web site for this company. Ensure that the website will help it solve the problems mentioned in the context above. Use the contents in the support folder called **LAURIE_COSMETICS**
